

Invites you to a Workshop on the **Emerald Ash Borer (EAB)**

- How to Recognize
- How to Treat
- Lessons Learned

Tuesday, October 21, 2014
10 am to 2 pm

Wetland Studies and Solutions, Inc.
5300 Wellington Branch Drive, Suite 100,
Gainesville, Virginia 20155

All Ash Trees in Virginia are susceptible to this deadly beetle!

- EAB has been detected in 21 Virginia Counties and 7 Cities
- EAB is highly destructive and has killed millions of ash in the US

Speakers Include:

Dr. Rex Bastian

Entomologist - Davey/The Care of Trees

Presenting lessons learned & management from the Chicago area's 8 year battle against the Emerald Ash Borer.

Will Ayersman

GIS Specialist - Davey Resource Group

Demonstrating how to use Geographic Information Systems (GIS) to predict Emerald Ash Borer occurrences.

Land Owners, Property Managers, Arborists, and Community Officials are advised to attend

Lunch will be provided for attendees. Contribution is welcome.
